

HEAVY DUTY TYPE CABLE LADDERS

TECHNICAL DATA

Width: From 50mm up to 600mm
Height: From 15mm up to 200mm
Length: Up to 6m
Thickness: From 0.8mm up to 2.0mm
* Special dimension can be produced upon the customer's requests.

CABLE LADDER MATERIALS

- Steel
- Stainless Steel
- Aluminium

CABLE LADDER FINISHING

- Hot-dipped Galvanized
- Pre-Galvanized
- Electro-Static Powder Coating

INTRODUCTION

Heavy-duty cable ladders are intended for temporary vertical access and are compact while providing maximum strength. When rigid rail ladders are not feasible or might endanger users or other employees, it can be utilized. Additional bends in the sidewalls and a welding technique applied to the joints enhance the weight carrying capability of heavy-duty cable ladders.

ACCESSORIES

- Cable Ladder Cover
- Coupler
- Adjustable Coupler
- Horizontal Bends 45°
- Horizontal Bends 90°
- Reducer
- Tee Bend
- Crossing Elements
- Inside Vertical Bend
- Outside Vertical Bend
- End Cap
- Separator
